3 February 2023

The Hon Tom Koutsantonis MP
Minister for Infrastructure and Transport

Minister.Koutsantonis@sa.gov.au

Dear Minister,

TRURO FREIGHT ROUTE

Thank you for facilitating the briefing from the Department of Infrastructure and Transport on 2 February 2023 regarding the progress of Truro Freight Route Project.

I note that the project is now 12 months behind schedule, with work not expected to begin until the fourth quarter 2023.

I am concerned that despite the extensive consultation with the Truro community, concerns including the entrance to and exit from the Truro township, the condition and maintenance of the current road surface, and a change to the project name have not been addressed.

Finally, I wish to raise my strong objection to this project being constructed as single lane each way.

My letter to you of 22 April 2022 regarding the South Australia High Productivity Vehicle Network Access urged you to progress this initiative further and develop a plan to see duplication of the Sturt Highway.

As this project will form an important part of this corridor it seems nonsensical to construct a single lane carriageway, albeit with overtaking lanes, now if duplication of this freight route is envisaged in the future.

As you have made clear with the North South Corridor, it is important that we get this project right from the start. Anything short of this project being completed as a double lane each way causeway will be suboptimal.

I understand from your Departmental officials that this decision was made based on the funding envelope. I offer to work with you to access the additional funding necessary to ensure this project is built right the first time.

Your prompt attention to the matters raised above would be appreciated.

Yours sincerely,

Tony Pasin MP

TP/CE
